

BMTI

The Public Agency for the
development of markets
and the dissemination of
economic information

BMTI

OUR IDENTITY

BMTI is the company of the Italian Chambers of Commerce System in charge of market regulation, development and transparency, and prices and economic information dissemination. Established by the Italian Minister of Agricultural and Forestry Policies under Decree no. 174/2006 and subsequent amendments, BMTI was originally meant to bring innovation to the commodity exchanges system which in Italy dates back to 1913.

TODAY, BMTI ANALYSES MARKET TRENDS
AND PROVIDES SERVICES TO ENTERPRISES,
INSTITUTIONS AND CONSUMERS.

OUR VALUES

WE ACT FOR THE GENERAL INTEREST, communicating with institutions and enterprises in order to understand their interests and needs, and provide them with our expertise and **commitment**.

IMPARTIALITY AND TRANSPARENCY ARE THE PRINCIPLES GUIDING US TO FULFIL OUR MISSION AND OFFER OUR SERVICES.

WHAT WE DO

Every day we take care of analysing markets, creating tools and services to provide economic information to enterprises and people in general.

BY USING DIGITAL TECHNOLOGIES, WE ARE ABLE TO CARRY OUT OUR TASKS RAPIDLY AND WITH BENEFITS FOR THE COMMUNITY.

WE MANAGE the database of the official wholesale prices, made available by the Chambers of Commerce, wholesale markets, CUN (single national commissions), and the Italian Online Commodity Exchange

WE DEVELOP tools and services to foster the dissemination of economic information to the benefit of enterprises, institutions, and consumers

WE MANAGE the trading platform of the Italian Online Commodity Exchange, which we developed to facilitate demand and supply matching of agricultural, agri-food, agro-energy, and fishery products, and to bring efficiency and transparency to markets

WE DEVELOP initiatives together with Italian institutions to improve the development of markets – starting from those in the agri-food sector – and we support them in the implementation of EU policies

OUR COMMITMENT

WITH THE AIM OF SUPPORTING THE COMPETITIVENESS OF THE ITALIAN ECONOMIC SYSTEM, WE ARE COMMITTED TO DISSEMINATE INFORMATION, AND OFFER EVER MORE USEFUL TOOLS FOR ENTERPRISES ACTIVITIES AND THE FORMULATION OF ECONOMIC POLICIES.

OUR ACTION IS ALSO DEVOTED TO CONSUMERS, FOR WHOM WE SPREAD NEWS AND DATA FOR AN INFORMED AND CONSCIOUS PURCHASE OF GOODS AND SERVICES.

In line with the Milan Charter of 2015, we offer to foreign countries institutions our know-how and engagement in **DEVELOPING A SYSTEM OF OPEN INTERNATIONAL TRADE, BASED ON SHARED RULES THAT ARE NOT DISCRIMINATORY, AND WHICH CAN REMOVE THE DISTORTIONS THAT RESTRICT THE AVAILABILITY OF FOOD, THEREBY CREATING THE CONDITIONS FOR IMPROVED GLOBAL FOOD SECURITY.**
